Emmanuel Faleti

emmanuelfaleti@outlook.com +234(0)911-807-4905 Ogun State, Nigeria. Portfolio

SUMMARY

Cybersecurity undergraduate and Cloud Engineering Intern with hands-on experience in AWS cloud infrastructure, Linux administration, networking, and security fundamentals. Skilled in AWS services including EC2, S3, IAM, VPC, route tables, load balancers, and AWS CLI, with practical experience in system monitoring, troubleshooting, and infrastructure management. Familiar with security tools such as Nmap and Wireshark and committed to applying cybersecurity best practices. Experienced in remote operations, technical support, and application testing, with a strong passion for cloud computing, cybersecurity, and building secure, scalable solutions.

EDUCATION

Osun State University 11/2023 – Present
Bachelor's Degree (BS), Cybersecurity Osogbo Nigeria

PROFESSIONAL EXPERIENCE

Cloud Engineering Intern 04/2026 – Present
Ntech Osun, Nigeria

- Configured AWS resources (EC2, S3, IAM) for cloud infrastructure deployments
- Deployed/managed apps on Linux servers, performed troubleshooting using cloud & system tools
- Applied IP addressing, DNS, and routing to support infrastructure operations
- Supported security best practices (access control, system hardening)
- Used command-line tools/scripts to manage and troubleshoot cloud resources

Freelance Virtual Assistant 12/2023 – Present
Freelance Remote - Asia, US.

- Manage administrative and operational tasks for multiple clients
- Handle email communication, scheduling, and data organization
- Support recruitment and candidate sourcing processes
- Conduct research and maintain structured digital records
- Improve workflows using productivity tools

App & Web Tester 01/2023 – 05/2024
Freelance Remote, US

- Tested web and mobile applications for usability and performance
- Identified bugs, UI/UX issues, and functional inconsistencies
- Documented test results and provided actionable feedback
- Collaborated with developers to improve user experience

CERTIFICATES

- Google Cloud Computing Foundation
- Cloud Managed Network 201 Cisco
- Linux Essentials Cisco
- Cisco Networking Essentials

SKILLS

- Cloud & Infrastructure: AWS EC2, AWS S3, AWS IAM, AWS VPC, Subnets, Route Tables, Load Balancers, AWS CLI, Linux Administration, Server Management, System Monitoring Networking: TCP/IP, IP Addressing, DNS, VPNs, OSI Model, Routing Fundamentals, Network Troubleshooting Security: Access Control, IAM & Least Privilege, System Hardening, Security Fundamentals, Vulnerability Assessment Programming & Scripting: Python, Bash, HTML, CSS Tools & Technologies: Git, GitHub, Command Line Operations, Nmap, Wireshark, Microsoft Office, Google Workspace Testing & Analysis: App Testing, Web Testing, Bug Reporting, UI/UX Analysis, Quality Assurance Administrative & Operations: Virtual Assistance, Email Management, Calendar Management, Data Entry, Web Research, Recruitment Support, Administrative Support
